Rethink Traditional Hot Tub Design

MSpa Hydrotherapy Collection

NEW FOR 2012

J-211 213 Collection

Introducing the new MSpa Inflatable Hot Tubs - Exotic Luxury Hydrotherapy Collection. Step into an MSpa - J-211/213 and let the water flow you. In creating the brand new Therapy Collection, MSpa designer and engineers were inspired to rethink traditional spa design - in terms of innovation, portability, features and performance.

And the ingenious result taking MSpa technology to the new height - the first "real" messaging jet spa with five to eight powerful jets. No scientific research is needed for the benefits of hydro therapy: instinctive comfort of setting into jet-driven water, the way stress seems to release itself into the steam and the spring in your step after a hydrotherapeutic session in an MSpa .

Standard Accessories

1. Inflatable Bladder: Keeps the heat loss to minimum
2. Heat Preservation Foam Mat: Protect spa and save energy by providing thermal barrier
